

HiLight® ThreeBar Inlaid with black insert

HiLight® Series

HEAVY DUTY SAFETY STAIR EDGING

PREMIUM PERFORMANCE AND FLEXIBILITY

CTA's HiLight® range of ribbed safety stair edging combines premium performance and aesthetics with maximum flexibility. Designed for high traffic situations, this range will add flair to any public area where style choices are important. HiLight® provides the highest level of slip resistance, with an extremely high P5 rating. The carborundum inserts can be used in any colour combination. HiLight® is available in **FiveBar**, **FourBar** and **ThreeBar** variants and in surface mount, recess and inlaid options. HiLight® is available in natural silver and anodised black finishes.

PERFECT FOR

Heavy duty internal and external applications, the recess and inlaid options are suited to new applications where a recess is allowed, while the surface mount option is perfect for retro fitting.

WHERE IS HILIGHT® USED

HiLight® offers the highest level of safety, and has been installed in high profile projects around Australia including:

- **Toowoomba Library** / Hutchinson Builders
- **Wyndham Aquatic Centre** / ADCO Construction
- **City West Police Station** / Baron Forge
- **Miami State High School** / St Hilliers Property
- **Greystanes Shopping Centre** / Stevens Constr.
