

StepRight® Entrance Matting

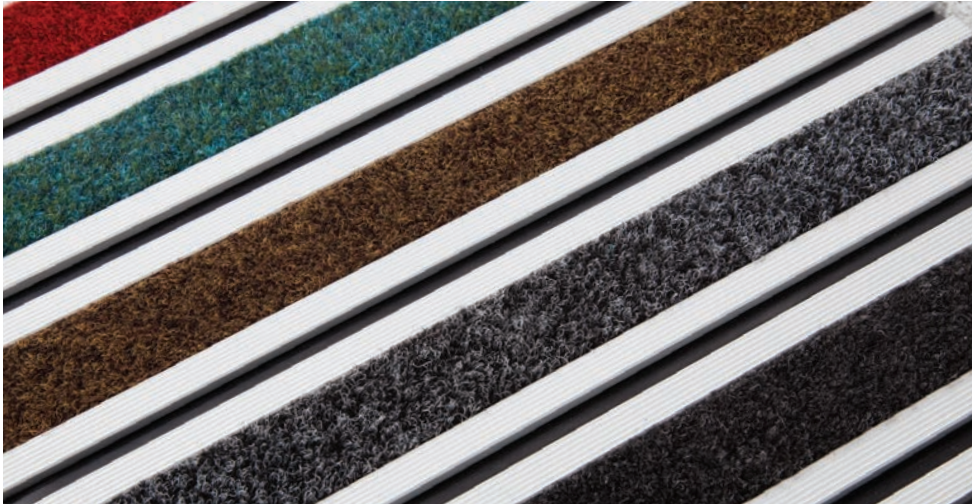

StepRight® architectural entrance matting is designed and manufactured in Australia from heavy duty anodised aluminium treads to provide an attractive, safe and easily maintained barrier between internal building conditions and the external environment.

StepRight® silently catches moisture, grime, dust and dirt at all entrance points, leaving internal floors clean, dry and safe. StepRight® is fully customisable and manufactured to size, incorporating a combination of rubber and carpet inserts in a range of colours, which can be specified as required to match the surrounding decor. It can also be framed off to provide extra delineation between the matting and internal floors.

StepRight® is highly durable, low maintenance, resistant to dirt and unaffected by moisture. It is also UV stabilised, stain resistant and the carpet inserts won't fray. In the unlikely event that maintenance is ever needed, StepRight® matting is easily rolled up and removed, and spare parts are always available.

KEY FEATURES

- Custom manufactured to clients specifications
- Easily installed into recess or surface mounted
- Flexible construction ensures StepRight® will not dome and cause annoying drumming
- UV stable, stain resistant and suitable in both wet and dry areas
- Safety inserts are rated R12 in accordance with the AS4586
- Rubber cushioning ribs ensure StepRight® Matting contours to the substrate to reduce impact noise
- Ease of maintenance, components are replaceable if damaged

MATERIAL

Manufactured from heavy duty anodised aluminium (Silver or Black), rubber and carpet for the highest possible level of wear resistance.

APPLICATIONS

- At entry points to buildings, to remove moisture and grit

DIMENSIONS

StepRight architectural matting is produced in a range of standard sizes to suit most installations and is easier to specify and maintain. Alternatively StepRight® can be purpose built.

Standard Sizes include:

- (900, 1200, 1800, 2700, 3600) wide x 1200 depth (standard duty)
- (900, 1200, 1800, 2700, 3600) wide x 1800 depth (heavy duty)
- Any other sizes on demand.

INSTALLATION METHOD

For builders, StepRight® is easy to install. It is supplied as a single continuous length which simply needs to be rolled out into place, whether into a pre-prepared recessed area or onto an existing surface. StepRight® is easy to install yourself, or CTA's team of accredited installers are available on quick turnaround to do the installation for you.

INSTALLATION

Set down installation - tiles/vinyl/carpet

Surface mount installation - concrete/tiles/vinyl/carpet

COLOURS

COMPLIANCE

All CTA products conform with the requirements of the Australian standards and are tested by a NATA certified laboratory. Please consult with CTA for relevant test reports:

- AS1428:2009 Design for access and mobility
- AS4586:2013 Slip resistance classifications for new pedestrian surface materials
- NCC - National Construction Codes

LUMINANCE CONTRAST

Please view the CTA Luminance Brochure for details or contact your CTA representative to discuss or request an onsite luminosity test.

WARRANTY

CTA provides a comprehensive warranty, in accordance with our published warranty statement which can be viewed on www.ctagroup.com.au

CTA COMPLETE CARE MAINTENANCE

Asset owners have a Duty of Care responsibility to maintain access product within design performance parameters. CTA offers a fully integrated maintenance program which includes regular scheduled maintenance and replacement of worn components where necessary. Please contact your CTA representative for information on our "Complete Care Program."

CTA INSTALLERS

CTA's accredited installers are available to do the installation work for you – with short turnaround times and guaranteed workmanship. Our installation team is the largest and most experienced in the nation, so you can rest assured you are in safe hands.

MORE INFORMATION

Product Installation, list of Approved Products and Material Safety Data Sheets are available on request.
