Entrymaster® Classic has proven itself time and time again as an excellent performing polypropylene entrance mat. Entrymaster® has a rubber-reinforced profile to prevent the pile crushing even in the highest traffic areas.

When you need a quality commercial surface mounted entry mat to keep your entrance area clean and safe, Entrymaster® Classic is the perfect choice. Entrymaster® Classic features a 'Water Dam' edge design which retains dirt and water, ensuring the area surrounding the mat remains clean and dry.

Entrymaster® Classic is easily cleaned by sweeping, vacuuming or hosing, dries quickly and the durable polypropylene will not fade, rot or stain. The cleated back minimises movement on most surfaces.

KEY FEATURES

- Ideal for high traffic areas
- Meets flammability standards
- Excellent dirt and water retention, and easily cleaned.
- Durable polypropylene will not rot, fade or stain and dries quickly
- Available in Charcoal or Bluestone
- 5 Standard sizes
- Anti-static, safe for use in sensitive areas rating 1.2KV

MATERIAL

Manufactured from durable Polypropylene with moulded rubber edges which will not tear or curl.

APPLICATIONS

Very hard wearing product which performs well in all high traffic applications such as shopping centres and educational institutions.
